Access: Accessed from our driveway-walk to pastures from there

Property: 2 pastures, 1 big area with not much grass. Pastures are approximately 3, 2 and 1 acres

Accommodate: Not sure how many livestock we could put there. Probably a lot in the short term

Sick/injured horses: Have a barn, but we would need to bring panels in to segregate ill or injured animals. Would have my animals in my dry lot adjacent to the barn, so we're probably not the most ideal spot for those animals, but we could make it work if needed.
